County Items.

What seems to be agitating the minds of the people of the county most at this time is how to improve the county roads. About two years ago the county purchased three road machines. These were used in piling up the dirt in the middle of the road. This does very well for summer travel, but when winter comes on it only increases the depth of mud. The people are seeing the necessity of making improvements upon roads with broken stone and gravel. They have petitioned the Board of Supervisors to that effect, and the board has instructed the road overseers to purchase hammers for the pur effect, and the board has instructed the road overseers to purchase hammers for the pur pose of breaking stone and to make all repairs with gravel and broken stone. The road fund is created by a tax of 15 cents on the \$100 worth of property and two days work from every male citizan between the ages of 15 and 60 years, or in the place of two days work \$1.50 fine. The law requires that the road survey summon every person liable to work, and if he fails, then to put an execution in the hands of the constable or reputation of our old establisment.

A failure of the road survey to issue such execution renders him liable to indictment. Should there be an extra session of the legislature it is probable that an amendment to the road law will be asked allowing the Board of Supervisors to increase the road tax, as the county is out of debt and the county tax can be lowered.

The purchase of land in the county still continues by persons living in Washington, and those coming on from a distance desirous of living near Washington. The most favored spots in the county seem to be Ar lington, Carlin's Springs, and Ball's cross-roads, the latter place being now known under the more suphonious name of Ballston. Several new buildings have been built with-in the last year, and several more are going up at these places.

The law passed by the legislature a few years ago requiring all land to be sold after being two years delinquent for State and county taxes, has had a beneficial effect up-on the finances of the county. Many per-sons living away, but holding land in the county for speculation, have heretofore greatly neglected the payment of their tax es, but now they have to come in and settle at least every two years or their land will be sold by the county treasurer.
